PROFESSIONAL SUMMARY

Software Engineer with 1 year of experience in full-stack development, proficient in Java, JavaScript, and cloud computing. Skilled in building scalable, user-centric applications and passionate about AI-driven solutions.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL, HTML, CSS, | **Frameworks:** Next.js, Tailwind CSS | **Frontend:** React.js, Redux, ShadCN UI | **Backend:** Node.js, Express.js, REST API, Spring Boot | **Machine Learning / GenAI:** LangChain, Gemini API, RAG (Retrieval-Augmented Generation), Semantic Search | **Tools:** Git, Docker, Jest | **Database:** MongoDB, Supabase, Pinecone, MySQL | **Methodologies:** Agile Development, CI/CD | **Software Engineering:** System Design

PROFESSIONAL EXPERIENCE (8+ MONTHS)

Chief Technical Officer | Aug 2025 – Present

Illusion AI / Mumbai

- Architected and delivered AI-driven full-stack solutions end-to-end, ensuring **scalability, performance, security, and reliability** across cloud-native infrastructure. Built and launched the company's landing page and product suite using **Next.js, Node.js, MongoDB, Pinecone, and GenAI**, significantly boosting brand visibility and user engagement.
- Designing and implementing back-end infrastructure for upcoming AI automation products using **Supabase, REST APIs, microservices, and containerization** for seamless integrations and rapid feature delivery.
- Driving product strategy with strong technical ownership, innovation, and leadership to accelerate development and delivery.

Software Developer Intern | Nov 2024 – July 2025

Aim2Excel / Mumbai

- Built **Early Fit**, a multi-role HealthTech platform (**patient, consultant, admin**) using **Next.js, TypeScript, TanStack Query, Tailwind CSS, and ShadCN UI**.
- Engineered a dynamic **Metabolic Form Builder** with OTP verification, streamlining personalized health data capture [live](#).
- Built **SEO-optimized landing pages with Google Tag Manager and Meta Pixel integration**, enabling data-driven user behavior insights that improved marketing effectiveness and boosting user engagement at [early.fit](#).
- Collaborated directly with clients to gather requirements, resolve issues, and ensure project delivery; owned end-to-end **deployment, hosting and domain management**, [shruttibose.com](#).
- Collaborated with cross-functional teams, applying strong communication, organizational skills, and customer service mindset to deliver high-quality solutions ahead of schedule.

PROJECTS

Taskify.ai | Jun 2025 – Present | [Live demo](#)

- Built an end-to-end task management solution with **AI-driven features** such as **Semantic Search** for natural language queries and **duplicate task detection** using **Gemini API (Generative AI)**, improving search accuracy and reducing redundancy.
- Integrated **LangChain** with **Pinecone Vector DB** to store and retrieve **Gemini API-generated embeddings**, enabling **scalable, millisecond-level semantic search** across thousands of tasks
- Implemented **Sentiment Analysis** on task notes/comments to gauge tone.
- Built a **Gemini-2.5-flash-powered productivity assistant** using **LLM and RAG** to handle contextual queries, generate task summaries, and personalize prioritization, increasing timely task completion.
- Designing an interactive **real-time analytics dashboard** with **Chart.js**, providing insights into performance and enabling data-driven decision-making.

EarlyFit Healthcare Platform | Apr 2025 – July 2025 | [early.fit](#)

- Independently developed three separate platforms: **EarlyFit Admin**, **EarlyFit Consultant**, and **EarlyFit Patient**. Each platform featured tailored functionality, including **OTP-based authentication**, dynamic health forms, **Zoom appointment scheduling**, and **Razorpay integration** for payment processing.
- Implemented access control and route protection to manage features for **subscribed vs non-subscribed** users, improving platform security and overall client satisfaction.

EDUCATION

Vidyavardhini's College of Engineering and Technology

Jan 2022 – May 2025

Bachelor of Engineering in Computer Science and Engineering(Data Science), SGPI: 7.2

CERTIFICATIONS

[Full Stack Development by Devtown](#), [SQL by Simplilearn](#)

ACHIEVEMENTS

Tech Jam Hackathon Finalist – Reached finals, **StartergiTech Hackathon Finalist** – Reached finals

SOFT SKILLS

Communication skills, verbal and written communication skills, Attention to Detail, Problem-Solving, Cross-Functional
